

# Maximizing Client Lifetime(LTV) and Retention

The background is a dark blue gradient. It features several glowing, interconnected lines and dots in shades of yellow, orange, and teal. These elements form a complex, abstract pattern that resembles a network or a stylized infinity symbol. The lines are thin and have small, bright dots at their intersections and endpoints. The overall effect is a sense of dynamic movement and digital connectivity.

Data-Driven Strategy from Customer Acquisition and Retention Analysis

By Isagani Hernandez

# Problem: Financial Leakage

- **Unknown Session Completion**

The business lacks a clear understanding of the Session Completion Rate across client segments.

- **Unrealized Revenue**

Failing to identify high churn points results in thousands of dollars in unrealized revenue.

# Inefficient Acquisition

- **Marketing resources are**

Marketing resources are allocated without calculating the true ROI by channel.

- **W efficient Acquisition**

We must move beyond lead tracking to identify channels delivering the highest LTV and lowest churn risk.

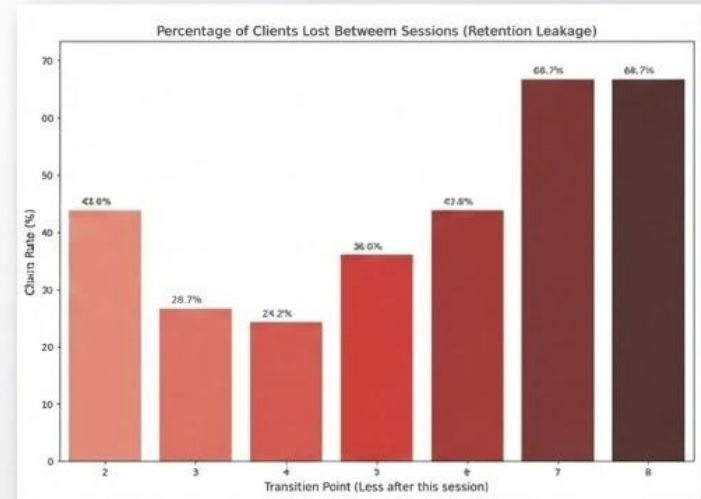

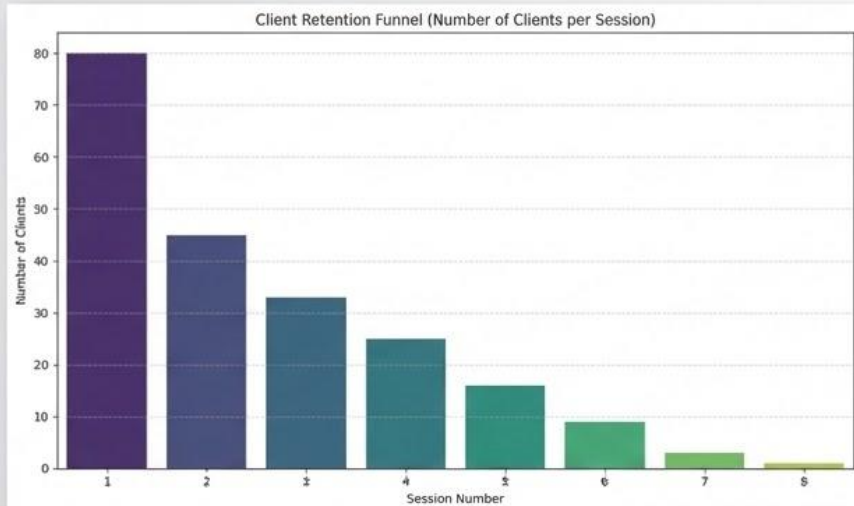

# Goal

- Create a data-driven framework to define the most profitable customer segments and direct marketing resources toward high-LTV channels.

# Data Findings: Critical Early-Stage Churn

- The most significant customer drop-off occurs between Session 1 and Session 2.
- The churn rate has a significant drop of **43.8%** from Session 1 to Session 2.

# Data Findings: Early-Stage Churn

## Impact:

There is a failure of converting new clients to repeating customers.

## High Risk Channels (S1 ----> S2):

Google, Instagram, and Word of Mouth has the greatest drop off among all channels.

## Client Retention Funnel by Source Channel

# Data Findings: Mid-Funnel Risk Points

There is a secondary increase in churn rate at the later stages of the treatment plan.

Risk points:

- Session 4 → Session 5 (36% loss)
- Session 6 → Session 7 (43.8% loss)

# Data Findings: LTV Performance & Acquisition ROI

**Highest Median LTV:** Tattoo Artist Referrals has the highest median LTV among all source channels.

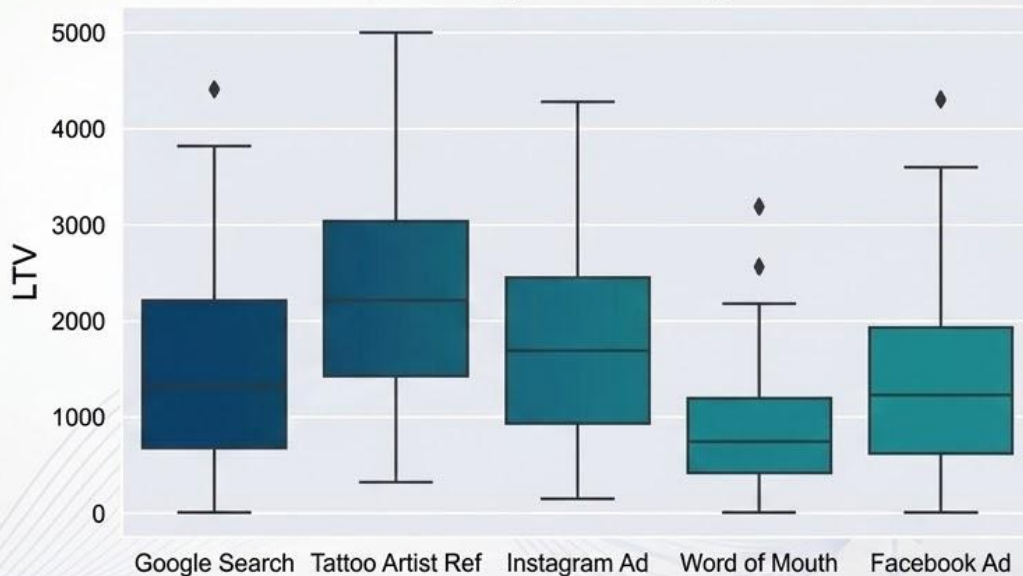

**High-Value Digital:** Google Search Ads and Instagram Ads are high-valued channels that should be prioritized.

**Low LTV Channels:** Word of Mouth has the least average LTV, followed closely by Facebook Ads.

LTV Spread By Marketing Channel

# Data Findings: Mid-Funnel Risk Points

**Secondary Churn:** Churn rates increase at later stages of the treatment plan.

**Risk Points:** Substantial churn is seen starting from Session 4 → 5 (36.0% loss) and Session 6 -7 (43.8% loss).

**Insight:** Clients further in their session journey still face a high risk of dropping off.

**Retention Leader:** Tattoo Artist Referrals show the greatest customer retention strategy with the least drop-offs across each session.

# Data Findings: What Drives High LTV?

## II. Data Findings: What Drives High LTV?

**Strongest Correlations:** LTV has a high positive correlation with:

-  **Total\_Sessions:** (0.77 correlation).
-  **Days\_Since\_Prior:** (0.70 correlation).

**Key Insight:** Clients who complete more sessions result in greater LTV.

**Commitment Signal:** Longer average gaps between sessions might indicate overall LTV.

### Key Insight:

Clients who complete more sessions result in greater LTV.

### Commitment Signal:

Longer average gaps between sessions might indicate commitment to a long-term process, leading to higher overall LTV.

### What Drives LTV?

# Plug the **43.8%** Leak

**Action:** Implement a mandatory, targeted **intervention** for all clients after their first session.

## Strategy 1: Retention Incentive

- Implement a **rewards system or discount** for customers to encourage the second session.
  - Focus this effort on Google, Instagram, and Word of Mouth clients.

## Strategy 2: Enhanced Communication

- Focus on proactive customer experience and follow-up communication after the first session.

# Action Plan: Acquisition and Investment Strategy

## Priority 2: Scale High-LTV

**Action:** Formalize partnerships with local tattoo artists and connect with them for referral campaigns.

**Result:** Maximize volume from our highest performing acquisition channel (Tattoo Artist Ref).

## Priority 3: Optimize Digital Spend

**Action:** Allocate more funds towards Google and Instagram Ads.

## Priority 4: Refine Low-LTV

**Action:** Re-evaluate the target and message for Facebook Ads.

**Action:** Implement a customer referral incentive program for Word of Mouth to attract higher LTV clients.

# Action Plan: Drive Session Consistency

**Objective:** Maximize LTV by encouraging high Total\_Sessions and sustained commitment.

## Strategy 1: Address Mid-Funnel Churn

Deploy re-engagement campaigns or personalized outreach to stabilize churn at Session 4 → 5 and 6 → 7.

## Strategy 2: Introduce Subscription/Packages

Design models (e.g., subscription or package deals) to encourage clients to commit to a greater number of sessions upfront.

## New Channel Exploration

Implement content advertising on TikTok and launch Email ad campaigns to diversify acquisition.

# Conclusion & Next Steps

## Summary:

Our immediate focus is closing the **43.8%** early retention gap and aggressively scaling the **Tattoo Artist Referral** channel.

## Request:

Approval to pilot the Session 2 retention incentive and formalize the Tattoo Artist Partnership agreements.

## Next Step:

Implement a robust and concise marketing analytics report to track report to track the ROI and churn rate impact of these strategies.
